

4-year international pre-doctoral + PhD program

Interdisciplinary research in biology

Sorbonne University, Paris, France

➤ **Deadline March 16th 2023**

The *Initiative for Interdisciplinary Research in Biology (i-Bio)* of the Sorbonne University Alliance in Paris is opening 4 positions for fully funded 4-year research programs. These will comprise one year of pre-doctoral rotation followed by a 3-year PhD contract to work at the interface between biology and other scientific disciplines.

Where: • At the [Paris-Seine Biology institute](#), or the [Fer à Moulin institute](#) in Paris, affiliated with [Sorbonne University](#).

When: • Starting October 15th 2023, for 4 years

What: • 1-year pre-doctoral experience with 3 successive rotational assignments of 3 months each, in 3 separate labs, starting October 15th 2023
• 3-year PhD on one of the three projects, chosen at the end of the pre-doctoral year, starting October 1st 2024
• List of pre-doctoral + PhD projects available [here](#).

Who: • Students of any nationality holding a Master degree or equivalent
• **Individuals** highly motivated to work at the interface between biology and other disciplines
• **Backgrounds in** biology, chemistry, computational biology, engineering, mathematics or physics

How: • Deadline: candidates fill in the application form by **March 16^h 2023 at 4 pm**.
• 1st round selection: evaluation of applications by the *i-Bio* Executive Committee
• 2nd round selection: mid-May 2023, shortlisted candidates will be invited for a video-interview by a Selection Committee composed of scientific experts and representatives of the Doctoral Schools. Final results will be communicated by the end of May 2023.
